

FlowJo Shared Computer Access

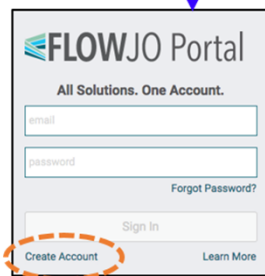

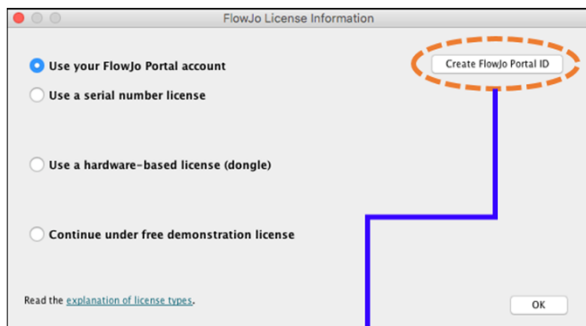

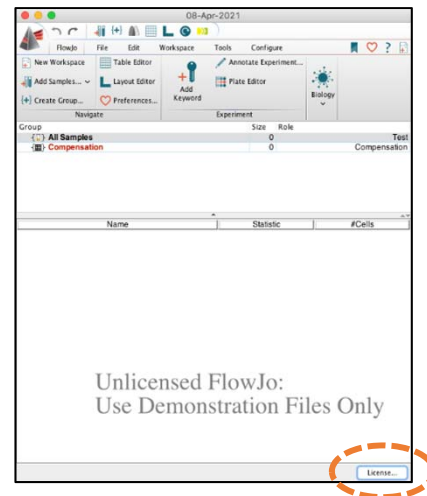

To be followed for use on the iMac located in the Flow Cytometry Core Facility. Available for use 24/7 for flow cytometric data analysis. Reach out to core facility staff for any training requests on the software.

Shared FlowJo Access

I. Open FlowJo

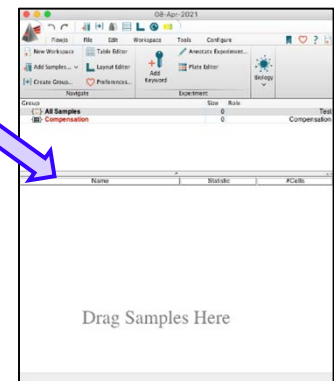

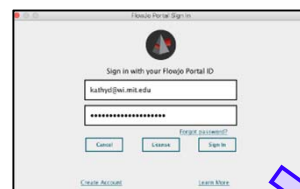

Double click on the FlowJo icon  from the Dock. FlowJo will show up as unlicensed, which will not allow you to analyze samples. Click "License" in bottom right corner.

II. Select FlowJo Portal

Select "Use your FlowJo Portal Account" and "OK".

Note: If you do not have a FlowJo portal account, you can create one by selecting "Create FlowJo Portal ID" and setting up the free account on FlowJo's website.

III. Log In

Sign in using your FlowJo Portal ID. Once you sign in, you will be using a licensed version of FlowJo and the workspace should say "Drag Samples Here".
